Our Packages for Your Perfect Day

So what do you get for your investment? For your peace of mind, all of our packages come with the following as standard:

Consultation

We feel that it's really important to have a face to face chat about your wedding before the big day, so whenever possible, we like to meet up with our couples for a coffee to discuss all of the finer details. If this is not practical for you, we're also available to schedule in a Skype chat.

2 Photographers

We always work as a team to make sure that we provide you with the absolute best photography from your wedding. This gives you a little extra peace of mind, as well as meaning that we can capture moments from different angles...we really can be in 2 places at once!

Fully Edited Images

Once we have completed the photography at your wedding, we curate the files to provide you with your complete collection. We then fully edit all of these photographs to provide you with your collection of beautiful, high resolution wedding photos.

The Packages
